

School Spider Free Downloadable Mobile Phone App (available from the iTunes/Android store)

This term we are trialling a new way of making contact with our parents. The School Spider app which links directly to our School website, is a free, confidential way for us to send you messages directly to your mobile phone.

All you need to do is search your app store for the School Spider app or follow the link on our Home Page, download it (it's FREE!) choose Westminster Primary School and then login. Details will be provided to you shortly. We can then send you messages directly to your mobile phone (just like WhatsApp).

We would encourage you to download the app and take a look – other features include parents being able to book their parents' evening slots through the app, answer surveys and allow permission on permission slips. This is something we hope to expand on as the term progresses and we would really like your feedback.

We would like to trial this with a group of parents in the first instance, so if you are interested in being part of our focus group, please return the attached slip to the Office before the end of January 2017.

I would like to be part of the School Spider app focus group, to receive messages directly to my mobile phone

Parent/Carer Name:

Child's Name:
